

Thank you for *advancing the world of health*

In support of the BD purpose of *advancing the world of health*, and our global disease eradication efforts, a donation has been made on your behalf for a UNICEF bracelet to help reduce three scourges that primarily affect young children. Malnutrition contributes to half of all deaths of children under five, according to UNICEF, while malaria causes over 360 deaths every day among the young and elderly. Despite advances, polio still survives in undeveloped countries, causing disability and death in children. This gift can fund enough vaccine to save 22 children from polio or 12 children from measles, or provide nine packets of lifesaving nourishment to children suffering from acute malnutrition.

Every one of us at BD plays an important role in bringing our brand to life. When we truly *live the brand*, we can realize the full measure of impact we can have individually, as teams and as a company. Thank you for helping live the brand and for *advancing the world of health* through your daily work.
